About Bruntwood

At Bruntwood, we are led by one purpose: Creating Thriving Cities. Our deep connection with the cities we work in sets us apart; and for more than forty years, everything we have achieved has been with this purpose in mind.

We create buildings, workspaces, innovation, retail, tech and science facilities that are connected, balanced, sustainable and inclusive. Places people want to live, work and play in.

Bruntwood Works, the division taking care of our work and lifestyle spaces, is changing the way people work by creating inspiring environments that help people and businesses to flourish across Manchester, Leeds, Liverpool and Birmingham.

Bruntwood SciTech, our science and technology division, owns and manages the largest portfolio of science and technology assets in the UK including prestigious locations such as

Manchester Science Park, Alderley Park in Cheshire and Platform in Leeds.

We aim to reflect the communities we work in. Welcoming diverse opinions, creative ideas and talent enables us to understand our customers and communities better, and see the world a little differently.

We're also committed to investing in areas where our expertise can have the most impact, with around 10% of annual operating profits going to local causes, both directly and through the Oglesby Charitable Trust. Proud supporters of the arts, we work alongside many organisations to elevate arts and culture across our cities, such as Manchester International Festival, as well as The Royal Exchange on the Bruntwood Prize for Playwriting.

Buildings and space is just the start of our story, we create thriving cities for all.

Shape your World

Everything we do comes down to our five values. In practice, these will mean something unique to every person at Bruntwood, but if you're considering working here, give them some thought. They've been at the heart of our story for over 40 years. Take a look at our [video](#) to find out more
